

Language Development Assignment

Step 1: Take a look at the following article: [The 12 Most Important Languages To Learn For Success](#).

Step 2: Answer the questions below:

What language are you interested in learning? There is a need for specific languages that are not often pursued. Identify if the language you have chosen is a critical language. → Critical Language Scholarship and Boren Honors College UTSA University of Texas at San Antonio	French French is not a critical language like Arabic or Chinese, but it is still very important globally. It is widely used in Europe, especially in academics, research, and international organizations. Many research labs and universities use French in daily work. • <i>Side note: Critical Language and Boren Scholarships are available to learn critical languages.</i>
Is this language offered at UTSA? Check the website here: Languages College of Liberal and Fine Arts UTSA University of Texas at San Antonio	If Yes, what UTSA courses are available?: Yes FRN 1014 . Elementary French I FRN 1024 . Elementary French II FRN 2013 . Intermediate French I FRN 2023 . Intermediate French II FRN 2333 . French Literature in English Translation If No, research ways you can study this language. Include the following information: website, cost. • <i>Side note: Honors College offers an Experiential Learning Award to help offset the costs of experiences such as language courses! Check out the award at: https://honors.utsa.edu/scholarships/honors-experiential-learning-award.html Links to an external site.</i>

How can learning this language help you in your career and/or future goals? (4-5 sentences)	I want to learn French because I plan to travel to France after my undergraduate studies before going to graduate school for a PhD. In the future, I want to work with research labs in Europe, especially in computer science. Knowing French will help me communicate better with professors, researchers, and students. It will also help me feel more comfortable living and working in a different country. Learning French will make it easier for me to adapt to research environments in Europe.
How can you adapt to unfamiliar cultures and stressful situations? (2-3 sentences)	I adapt by staying open-minded and respectful of different cultures. When things get stressful, I stay calm and focus on solving the problem step by step. This helps me adjust and work well in new environments.
